

Bently Nevada 3500 & Transducer Training

COURSE OBJECTIVE

Give your technicians the training they have been asking for to better work with the 3500 Series Machinery Monitoring System. If you are tired of calling the OEM for problems that are simple fixes, this training can make your technicians more capable of handling these problems.

AGENDA

- Proximity Transducer System Operation
- Host to Rack Communications
- 3500 Rack Configuration
- Troubleshooting Problems

TRAINING CERTIFICATES WILL BE PROVIDED
